

JUAN ARENAS

FULL-STACK DEVELOPER

As a full-stack web developer, I have a solid background supported by previous experiences and studies that have allowed me to effectively collaborate in teams, both in Front-end and Back-end. I have skills in agile methodologies, Git, GitHub, data structures, frameworks, JavaScript, Node.js, React, Redux , UX/UI Design , postgresSQL,HTML and CSS . I excel in problem-solving, possess strong communication and teamwork skills in both Spanish and English. My versatility enables me to adapt quickly to any environment. Furthermore, my quick learning ability is complemented by my experience in graphic design, allowing me to craft exceptional web experiences that seamlessly merge art and technology.

JORGE TADEO UNIVERSITY

Audiovisual Medias
Professional
2011-2014

FRONT END - NEOGN

September 2023 - October- 2023

Git Hub Repositories :

[danielhh-dev/NEO](#), [ecodernat/NEOGN-Front](#)

Academy experience. Henry Bootcamp

Description: NEOGN is an e-commerce of tech devices. It includes several functionalities like , third party auth, Mercado Pago, Filters, pagination, Dashboard, favorites, cart ,among others.The technologies used were JavaScript, React.js, Redux toolkit, Tailwind, Express, Node.js, Figma, PostgreSQL.

Some Achievements:

- Design of multiple views using figma, tailwind using UX/UI principles
- Developing of chatbot for customer service and FAQs with dialogFlow

SOME OTHER PROFESIONAL EXPERIENCE

TECH SUPPORT - ASURION

2020 - 2022

During my tenure as a Tech Support Specialist at Asurion I enhanced my problem-solving and software skills while diagnosing and resolving technical issues with mobile devices in USA. This role demanded multitasking, effective customer communication, and consistently achieving high satisfaction ratings. I also contributed to internal knowledge resources and kept current with tech trends, qualities I believe are transferable to a software development role.

DELIVERIES COORDINATOR - RAPPI

2016-2017

As a Delivery Supervisor at Rappi, I coordinated and optimized delivery operations, ensuring the timely and efficient completion of deliveries. This role required effective team communication and problem-solving skills. It provided me with valuable experience in operational coordination, process optimization, and team management
